

### Is it Time to Migrate to a Public Cloud Solution?

Do you need to migrate your X3 infrastructure to a public cloud like Amazon Web Services? Work with a business partner who intimately understands the complexity of X3 migrations and public cloud options. With the expertise of our X3 Engineers and Cloud experts, ZelieTech can help.

Whether you need to migrate to an existing X3 environment, implement a new one, or need a fully managed service to run your X3 environment in a public cloud, ZelieTech has the expertise to make your project a success.

### Streamline your IT on Managed Public Cloud

Moving to a public cloud solution takes you out of the data center and maintenance business, allowing your resources to focus on business critical initiatives. No more hardware upgrades! Scale up or down quickly and efficiently, stay current on patches and updates, end operational headaches between IT silos!

- Align resource needs with your budget
- Ensure right sizing for your business
- Utilize compute power efficiently
- Stay current on patches and updates
- Increase stability

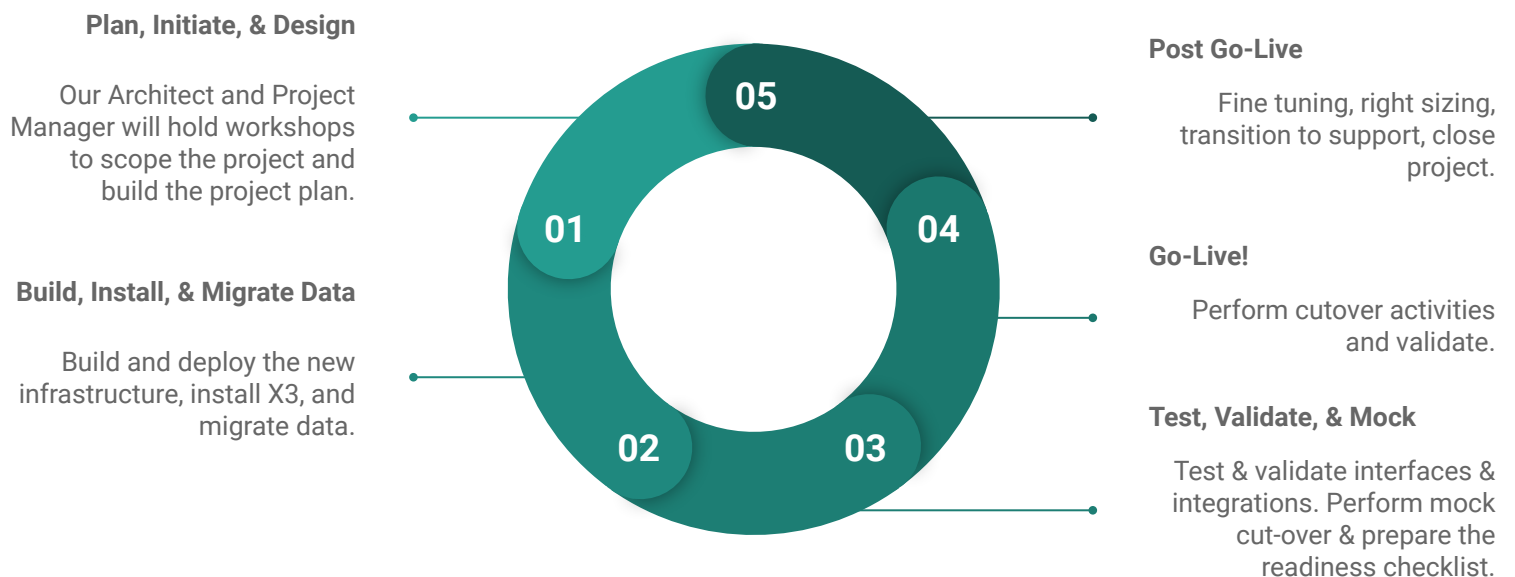

01	Cloud Management Services	<ul style="list-style-type: none"><li>• End to end management of servers and cloud infrastructure</li><li>• Migration Service</li><li>• Cloud Architectural Design</li></ul>
02	Flexible Spend	<ul style="list-style-type: none"><li>• Pay for only what you are using</li><li>• Reserved instance pricing options</li><li>• Ability to shut down workloads when not in use.</li></ul>
03	Agility	<ul style="list-style-type: none"><li>• Rapidly spin up and down new workloads</li><li>• Ability to have workload close to where your users are</li><li>• Ready made platform services</li></ul>
04	One provider for all cloud solutions	<ul style="list-style-type: none"><li>• Customer can leverage ZelieTech as a holistic cloud provider. With the same expected quality regardless of the platform.</li></ul>

## ZelieTech's Approach & Methodology

ZelieTech delivers best in class project implementation. Our team will fully scope and design your X3 implementation based on your business needs and requirements. ZelieTech will always remain committed to providing the most simple and straightforward approach to implementations. You can expect:

- Clearly defined business objectives, project plan, migration plan, and milestones
- Inventory IT application & dependencies
- Identify adjustments, upgrades, and changes required
- Clearly define business objectives, project plan, and milestones
- Effective knowledge transfer to your internal team(s)
- Effective and efficient use of ZelieTech resources
- On time and on budget implementations

## What Separates ZelieTech from other Business Partners?

- ZelieTech has a personal touch. You will consistently work with the same team members from the start of our engagement through the completion of the project and/or service.
- The ZelieTech team has extensive experience partnering with other 3rd parties and teams with global footprints. The ZelieTech team wants to integrate with your existing team!
